9 Queen St, Edinburgh  
EH2 1JQ

## Monday 21 to Friday 25 May 2012

Course Director: Dr Andrew T Elder, FRCP Edin, Consultant in acute medicine of the elderly

This popular international course offers a valuable opportunity to discuss clinical issues in Elderly Care. The Royal College of Physicians of Edinburgh will run this course again in May 2012, at our elegant facilities in the heart of Edinburgh. Attracting clinicians from around the world, the course offers an in-depth look at the ageing heart, delirium, dementia and depression, stroke, surgery and the Elderly, and Parkinson's Disease.

Delegates also have the opportunity to explore Edinburgh, with half-days on Wednesday and Friday and an optional social programme.

The full programme will be available on the website by 28 November 2011 at <http://events.rcpe.ac.uk> or email [c.gray@rcpe.ac.uk](mailto:c.gray@rcpe.ac.uk)

"I cannot think of any way it [the course] could be improved. It was terrific. I particularly liked the practical focus (with references to evidence and 'best practice')"

"... I found this course extremely enlightening and well-conducted. Great experience!"
