Proposal to add zopiclone to the Safety Medicines list

Dear Kaye

The New Zealand Medical Association (NZMA) wishes to provide feedback to PHARMAC on its proposal to add zopiclone to the Safety Medicines list.

Our association supports this proposal which would permit prescribers to determine the dispensing frequency of zopiclone without the patient having to meet other dispensing frequency criteria.

Thank you for the opportunity to provide feedback on this proposal.

Yours sincerely

Dr Mark Peterson
NZMA Chair
